To Whom It May Concern,

CES Consultants, Inc. is currently working as the Program Manager for the Town of Palm Beach, Florida, for their Accelerated Capital Improvements Program. This Program was developed back in 2010 to acquire Bond money at a great rate, and compress the next 20 years of Capital Improvement Infrastructure improvement projects into a much shorter time period. The Merchant Strategy (TMS) has helped CES and the Town inform the residents to let them know the successes of the program, and how future work could affect their commuting on the island.

CES has been very happy with the services provided by TMS and continues to include them on our Team whenever we are pursuing work that involves a Public Involvement component. Sharon and her staff are very responsive, and well qualified. I would recommend them to anyone who needs Public Involvement services.

Sincerely,
CES Consultants, Inc.

Bud Goblisch, P.E.
Vice President
