- \* **Procurement and Contracts awarded**
- \* **Budget to Project**
- \* **Project Savings**
- \* **Did you know...the city was awarded \$897,344 in grants in 2015**

## SAVE YOUR PIPES, DON'T FLUSH BABY WIPES

Baby wipes aren't designed to be flushed—sooner or later, they'll get stuck somewhere. They may clog your pipes at home, leading to costly plumber visits. Or, they may get caught in the public wastewater system, which can cause thousands of dollars' worth of damage to pumping equipment, which leads to higher sewer bills for all of us. So next time you use a baby wipe, for whatever reason, remember: Put it in the trash...every single time.
